Experience

Freelance

Studio ewt

Sep 2022 - Current

Since 2022, I have been freelancing, working on projects ranging from website design to digital products. In early 2024, I took on more freelance work, including the Vizify configurator, focusing on creating user-friendly and impactful designs.

Product Designer

Vizify

Jan 2024 - Mar 2024

Created the interface for the Vizify 3D configurator. Testing with users, iterating with the developer until the product was finished.

Product Designer

Fonkel

Aug 2021 - Sept 2023

Led UX/UI design initiatives, conducting user research, and creating wireframes. Iterated on designs based on user feedback, ensuring exceptional user experiences. Managed multiple projects, fostering collaboration between developers and clients for timely delivery.

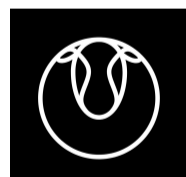

Web Designer

RUD Utrecht

Nov 2020 - Feb 2021

In collaboration with another designer, we revamped the RUD Utrecht website to its current state. I was in charge of the mobile design ensuring all usability and features worked as they should.

Digital Designer

Schaapontwerpers

Sep 2020 - Feb 2021

Contributed to diverse design projects, demonstrating versatility in website development, logo design, animation, and interactive prototyping.

Digitaal Designer

Funcke - Internship

Feb 2019 - Apr 2019

Gained initial design experience through an internship, focusing on website design, client documentation, and concept development.

Electrician & Solar panel specialist

Eve Energy

March 2016 - July 2017

Led a team of solar panel technicians, overseeing installations and maintenance. Consulted with clients on solar energy solutions and installed electrical systems.

Education

Communication and Multimedia Design

Hogeschool van Amsterdam - Bachelor's degree

2018 - 2022

Electrical installation technician

MBO Leusden

2012 - 2014
